REQUIREMENTS FOR ZONING PERMIT - PLOT PLAN SUBMISSION

When constructing a single-family dwelling, include:

- property dimensions
- dimensions of proposed building
- elevation plan of proposed building
- distance of proposed work from property lines and street- application for driveway permit if driveway is accessed from Township Road
- septic permit if on-site supply (if central tie-in, check with Sewer Authority for hook-up)
- slopes on lot
- location of all septic components and distances to structures

When constructing an addition, porch, deck, shed, etc., include:

- property dimensions- dimensions of existing building
- dimensions of proposed work- elevation of building/structure above grade level
- distance of proposed work from property lines, street, and existing principal building
- slopes on lot if steep slopes exist
- location of all septic components and distances to structures

When applying for a change of use or new use permit, include:

- description of proposed use(s)
- description of existing use (if available)
- floor plan of area designating square footage of proposed use(s)
- number of employees
- number of seats (when applicable)
- number and location of parking spaces
- if use is temporary, length of time the use will take place

When applying for a sign permit, include:

- type of sign (ground, wall, projecting, roof, temporary, directional)
- dimensions of sign
- location of sign on property
- sketch of sign with exact lettering, logos, colors
- existing signs for the applicant business on the property
- if sign is temporary, length of time the sign will be erected
- lighting of sign, if any

Lot 23, Grant Street

Calculations of square footage	
House	45 X 30 = 1350
Garage	25 X 25 = 625
Shed	10 X 15 = 150
Deck	10 X 20 = 200
Addition	15 X 30 = 450
Driveway	$\frac{10 + 25 \times 45}{2} = 787.5$
	3562.5

Lot Area = 165' X 130' = 20,800

Impervious Coverage = $\frac{3562.5}{20,800 \text{ sq. ft.}} = 17.12\%$
